Number of scholars added to the schools by enforcement of Truant Law,	53
Increase in number of scholars over last year,	71

In making our report of the schools of Jaffrey, we realize that we are a year older than last year and some things are different from what they were then.

But on the whole, the difference is one of improvement, in some respects a marked improvement.

Last year we reported 255 scholars in our schools. This year we report 326, a gain of 71.

Of these 53 are the direct result of enforcement of the Truant Law.

Last year we reported 9 schools with an average of 28 scholars.

This year we have 10 schools with an average of 32.6 a gain in both items.

Last year we reported 220 weeks of schooling, this year we have 277.6, a gain of 57.6 weeks.

One school, that at No. 4, has been discontinued for good reasons.

One new school has been opened at No. 2, the intermediate, with 35 scholars. But still the work is hindered for lack of room.

By the building of the new school-house at No. 2, we really gained but one school-room for we gave up the North room in the old school-house to the Conant school, to which it would seem to belong.

With an increase of over 50 scholars in No. 2 we have only one new school of 35, and are therefore 15 behind last year.

With an increase of 71 scholars in Nos. 2 and 8 we are more crowded than ever and have been obliged to put extra seats in two school-rooms.

No. 8 already has 52 scholars enrolled, with room for but 42, the Primary at No. 2 has 82 scholars with room for but 56, and the Grammar grade has 53 with room for but 40.

Added to these, the enforcement of the Truant Law will probably yield 25 or more at the opening of the Spring term of school.

What shall we do with them?

Any one who understands the subject must be aware that 30 to 35 scholars are as many as can be taught effectively in any one school.

With this surplus of over 100 scholars we must have more room and more money or we cannot do the work as it should be done, and work half done is always done at a loss.

We must have one new school and we need two at the opening of the Spring term.

It would seem necessary to complete the new school-house at an early date that we may have the two extra rooms on the second floor.

With the growth of the schools comes added expense for school supplies.

Therefore for the coming year we ask for an appropriation of \$200. for this purpose.

We would also ask for an appropriation of \$500. for general expenses, and in the event of finishing the new school-house so as to give us two rooms instead of one, we ask for \$300. more or \$800. in all.

Remember we cannot have something for nothing. Our estimate is a conservative one and Jaffrey cannot afford to neglect her schools.

The present Board of Education has become convinced that it is poor business method to economize on teachers.

Moreover, if Jaffrey will have 350 children it must educate them all or pay for it in the future on the loss side of the account.

At present we have only 30 weeks of schooling. We are behind other states in this respect. We should have 40 weeks or more. Let us do more than the law requires of us. Let us do what is for our interest to do.

Good work has been done in our schools this year, better than ever before.

Some of our schools will compare favorably with those of Massachusetts which has the best schools in the world.

Our new school-house, when completed according to the architect's design, is as good as any.

When a few remaining obstacles shall be removed and improvements made in the spirit of the 19th. century we shall have schools to be proud of in every respect.

M. L. CUTLER, Sup't of Schools, for School Board.
